EXPLANATORY STATEMENT

Pursuant to Section 102 of the Companies Act, 2013 ("Act")

Explanatory Statement for Resolution No.1**Approval of Material Related Party Transactions with Tata Steel Limited ("Tata Steel")****Context:**

A resolution for related party transaction for the value of Rs. 300 crore was approved by the shareholders for the financial year 2017-18 and thereafter. A resolution for approval of similar transaction for financial year 2018-19 with enhanced value of Rs. 420 crore was placed for approval of the shareholders at the 35th Annual General Meeting held on 18th July 2018, which has not been approved. The incremental amount is sought in view of planned increased production and volatility in the prices of iron ore during financial year 2018-19 and financial year 2019-20. The transaction is most critical for the operations of Tata Sponge Iron Limited ("Tata Sponge"). Hence, after doing a detailed analysis of the results and the consequences, the Board has decided in its meeting held on 7th August, 2018, to place the resolution again and seek approval of the shareholders. However, it may be noted that since the purchase of iron-ore and sale of power is a continuous operation and if approval is sought for one financial year i.e. only for financial year 2018-19, the approval will expire on 31st March 2019. Hence, for uninterrupted operations of the Company, by effecting purchase of iron-ore and sale of power beyond 1st April 2019 till the date of approval of the Shareholders within financial year 2019-20, the approval is being sought for the financial year 2019-20 as well.

Background and Details of the transaction:

Iron-ore constitutes approx.45% of the total cost of the raw materials of the Company. Consistent, cost effective and assured supply of iron ore of high quality is the most important requirement for continuous operations and higher productivity. The details of the proposed transactions are as follows:

- (i) Iron-ore would be purchased from Tata Steel for the value of Rs. 350 crore for each of the financial year 2018-19 and financial year 2019-20. It may be noted that right from the Company's inception around 30 years ago, Tata Sponge has been primarily purchasing iron-ore from Tata Steel.
- (ii) Power would be sold to Tata Steel for the value of approx. Rs. 70 crore for each of the financial year 2018-19 and financial year 2019-20. The power is generated out of the waste heat resulting from production of sponge iron. As such Power generation is integrated with production of sponge iron in an environment friendly operation.

Benefits of purchasing Iron-Ore from Tata Steel:

The iron-ore mines of Tata Steel are situated in the States of Odisha and Jharkhand and located approximately within a range of the distance of 15-35 kms from the plant of Tata Sponge. Tata Steel's iron ore mines are one of the largest iron mines in the State of Odisha. The strategic advantages for the Company by purchasing iron-ore from Tata Steel are:

- (i) The consistency in supply of high quality and desired quantity of iron-ore is assured, since the supplier Tata Steel has been supplying to Tata Sponge for the last 30 years.
- (ii) The quality of iron ore from Tata Steel mines is reliable and does not require further beneficiation by Tata Sponge before feeding to the plant;
- (iii) Tata Steel also gives commercial discount over and above the e-auction price of iron-ore notified by the State Public Sector Company, Orissa Mining Corporation;
- (iv) The cost of transportation is minimal. As such, the landed cost of iron-ore at Tata Sponge plant by purchasing from Tata Steel is most advantageous to Tata Sponge.

Benefits of sale of power to Tata Steel:

The surplus power generated is about 19MW, which if sold to Tata Steel would fetch the following benefits to Tata Sponge:

- (i) Under the Indian legal framework [Electricity Act, 2003], if the Company sells the power to a third party, it would be required to pay a surcharge to the Power Distribution Company. The company is not required to pay the said surcharge on sale of power to the holding company, Tata Steel.
- (ii) Further, the net realization by sale of power to Tata Steel is normally higher than the revenue that the Company would get by trading the surplus power at the power exchange or sale to other consumers since sale of power to Tata Steel is through a long term contract between Tata Sponge & Tata Steel.

- (iii) The contractual agreement to sell power to Tata Steel is indexed to the price of power notified by the Odisha Electricity Regulatory Commission (OERC), a quasi-judicial authority for bulk consumers. Hence, this insulates the Company from any price volatility and the same is at arms length as certified by an affiliate of a Global Accounting and Advisory firm,.

Approval being sought for a period of two Financial Years:

Approval is being sought for a period of two financial years because if approval is sought only for financial year 2018-19, it would expire on 31st March 2019. In order to ensure uninterrupted operations of the Company the shareholders' approval is being sought for financial year 2018-19 and financial year 2019-20.

In the aforesaid background, the Company explains below further details:

Section 188 of the Companies Act, 2013 and the applicable Rules framed thereunder provide that any Related Party Transaction will require approval of shareholders through ordinary resolution, if the aggregate value of transaction(s) amounts to 10% or more of the annual turnover of the Company as per the last audited financial statements of the Company.

As per Regulation 23 (4) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ["SEBI Listing Regulations, 2015"] all material related party transactions shall require the approval of shareholders. Further, explanation provided to Regulation 23(1) of SEBI Listing Regulations, 2015 states that a transaction with a related party shall be considered material if the transaction/ transactions to be entered into individually or taken together with previous transactions during the financial year, exceeds 10% of the annual consolidated turnover of the Company as per the last audited financial statements of the Company. According to this definition the relevant turnover was Rs. 816.65 crore for the financial year 2017-18 and 10% of which is equal to Rs. 81.65 crore. Hence, it is proposed to secure shareholders' approval through postal ballot/ e voting for the following related party contracts/ arrangements to be entered during financial year 2018-19 and financial year 2019-20.

Pursuant to Rule 15 of Companies (Meetings of Board and its Powers) Rules, 2014, as amended till date, particulars of the transaction(s) etc. are as follows:

1. Name of the related party

Tata Steel Limited ("Tata Steel")

2. Name of the director or key managerial person who is related, if any

None.

3. Nature of relationship

Tata Steel is a holding Company having 54.50% shares in the paid up capital of the Company.

4. Nature, material terms, monetary value and particulars of the contract or arrangement.

Right from its inception around 30 years ago, the Company has been purchasing iron ore from Tata Steel. As enumerated above the Company gets qualitative and quantitative advantages by usage of iron ore purchased from Tata Steel.

As mentioned above, in the existing regulatory framework selling Power generated by the Company to the holding Company, Tata Steel is commercially advantageous to the Company than selling Power to the third party / State grid. In addition, selling Power through long term contract reduces the volatility significantly.

The pricing mechanism for both purchase of iron ore and sale of Power is purely market based. The latest auction price of State Public Sector Company, Orissa Mining Corporation (OMC) will be considered as base/ indicative price for purchase of iron ore. Further Tata Steel also gives commercial discount over and above the e-auction price of iron-ore notified by OMC,

The pricing mechanism for sale of power is based on the notified price of the Quasi-Judicial Authority i.e. The Orissa Electricity Regulatory Commission for bulk consumers.

The maximum combined value of such transactions will be capped at Rs. 420 crore each in the financial year 2018-19 and financial year 2019-20, for purchase of Iron Ore and sale of Power.

5. Rationale behind the resolution The advantages associated in transacting with Tata Steel for purchase of iron ore and sale of power are given below.

i) Purchase of iron Ore:

A. Lower logistics Cost due to close proximity with Tata Steel Mines

The Company has been purchasing iron ore from the nearby mines of Tata Steel, since inception of Tata Sponge Iron Ltd around 30 years ago. Tata Steel is operating one of the largest iron ore mine in the State of Odisha for several decades. The Tata Steel iron ore mines are situated at a distance of approximately 15-35 Kms from Tata Sponge plant. As such sourcing of iron ore from these nearby mines of Tata Steel is beneficial for the Company as it helps the Company to save on inward logistics costs as compared to purchase from other sources.

TATA SPONGE IRON LIMITED

POSTAL BALLOT NOTICE

B. Quality & Quantity of Iron Ore

The Company has been operating the sponge iron plant at over 100% capacity utilisation, while the overall Industry utilization rate in the Country is about 70%. The key success factor of the Company inter-alia is procurement of right quantity and quality of iron ore which constitutes approx. 45% of the total raw material cost. A consistent supply of high quality of iron ore from Tata Steel, is a huge advantage to the Company. This also helps in controlling the operating parameters in the sponge iron Kilns, which leads to increased campaign life of the Kilns, thereby increasing the productivity and profitability of the Company.

C. Discounted Price

The pricing mechanism of iron ore purchase from Tata Steel is at arm's length basis which is linked to the auction price of the Odisha Mining Corporation, a State Public sector company. Further, the Company gets a commercial discount for bulk purchase of iron ore from Tata Steel.

ii) Sale of power:

The Company generates about 19 mw of surplus power. As mentioned above, in the existing regulatory framework selling Power generated to the holding Company, Tata Steel is commercially advantageous to the Company than selling Power to the third party / State grid. In addition, selling Power through long term contract reduces the volatility significantly.

6. Arm's length pricing vetted by an affiliate of Global Accounting and Advisory Firm

The transactions with Tata Steel for purchase of iron ore and sale of Power, are vetted by an affiliate of a Global Accounting and Advisory firm, for the arm's length pricing. The said transactions have been recommended by the Audit Committee and Board of Directors of the Company for consideration and approval by the shareholders.

These transactions are at arm's length basis and in the ordinary course of business.

None of the Directors or Key Managerial Personnel of the Company or their respective relatives are in anyway, concerned or interested either directly or indirectly in passing of the said Resolution.

The Board recommends the passing of this resolution.

Context:

A resolution for related party transaction for purchase of coal from Tata International Singapore PTE Ltd. ("TISPL") for the value of Rs. 300 crore were approved by the shareholders for the financial year 2017-18 and thereafter. A resolution for approval of similar transaction for financial year 2018-19 with enhanced value of Rs. 450 crore was placed for approval of the shareholders at the 35th Annual General Meeting held on 18th July 2018, which has not been approved. The incremental amount of Rs. 150 crore, is required for purchase of additional quantity of coal in view of planned increased production and volatility in the prices of coal during financial year 2018-19 and financial 2019-20.

The transaction is most critical for the operations of Tata Sponge. Hence, after doing a detailed analysis of the results and the consequences, the Board has decided in its meeting held on 7th August 2018 to place the resolution again and seek approval of the shareholders. However, it may be noted that since the purchase of coal is a continuous operation and if approval is sought for one financial year i.e. only for the financial year 2018-19, the approval will expire on 31st March 2019. Hence, for uninterrupted purchase of coal, approval is sought for the above values for financial year 2018-19 and financial year 2019-20 each.

Background and Details of the transaction:

Coal constitutes approx. 55% of the total cost of the raw materials of the Company. Consistent, cost effective and assured supply of coal of desired quality is the most important requirement for continuous plant operations and better productivity. Tata Sponge gets its coal primarily from South Africa which meets the required quality parameters suitable for sponge iron making. High calorific value thermal coal is sufficiently not available in India. The details of the proposed transactions are as follows:

Coal would be purchased from TISPL for the value of Rs. 450 crore for each of the financial years 2018-19 and 2019-20. It may be pertinent to note that Tata Sponge has been purchasing coal through TISPL since last 6 years.

Benefits of purchasing Coal from Tata International Singapore PTE Ltd: ("TISPL")

Tata Sponge has experimented various types of imported high calorific value thermal coal and has identified certain South African grades of coal as the most appropriate for its use considering the technical fit / yield and landed cost economics.

TISPL, being a group company, has significant presence in South Africa and has deep knowledge about trading of coal and access to sourcing channels / miners, expertise in shipping, freight operations and market intelligence.

In the above business backdrop, Tata Sponge derives significant value in leveraging TISPL's expertise in the following ways:

- a) **Sourcing Cost** – TISPL by virtue of its size / trading book has a better negotiation position with the miners / suppliers, to secure competitive sourcing rates.
- b) **Freight Benefits** – Further as trading company, TISPL is able to plan large vessels size (Panamax) instead of Supramax vessels, such that additional quantity is sold by TISPL to other customers and Tata Sponge benefits from lower freight. This improves the overall landed cost economics for Tata Sponge.
- c) **Flexibility** – Under this arrangement, TISPL provides value added services to Tata Sponge, such as change in scheduling/ lay cans, shipment sizes to meet Tata Sponge's dynamic plant inventory situations.
- d) **Professional Services** – Being a Tata group Company, TISPL offers professional and transparent business services to secure coal supply. TISPL charges a fixed commission per ton for the services including port documentation, commercial formalities and their cost of fund etc.

Approval being sought for a period of two financial years:

Approval is being sought for a period of two financial years because if approval is sought only for financial year 2018-19, it would expire on 31st March 2019. In order to ensure uninterrupted operations of the Company, the approval is being sought for financial years 2018-19 and 2019-20.

In the aforesaid background the Company explains below the further details:

Section 188 of the Companies Act, 2013 and the applicable Rules framed thereunder provide that any Related Party Transaction will require prior approval of shareholders through ordinary resolution, if the aggregate value of transaction(s) amounts to 10% or more of the annual turnover of the Company as per last audited financial statements of the Company.

As per Regulation 23 (4) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ["SEBI Listing Regulations, 2015"] all material related party transactions shall require the approval of shareholders. Further, explanation provided to Regulation 23(1) of SEBI Listing Regulations, 2015 states that a transaction with a related party shall be considered material if the transaction/ transactions to be entered into individually or taken together with previous transactions during the financial year exceeds 10% of the annual consolidated turnover of the Company as per the last audited financial statements of the Company. According to this definition the relevant turnover was approx. Rs. 816.65 crore for the financial year 2017-18 and 10% of which is equal to Rs. 81.65 crore. Hence, it is proposed to secure shareholders' approval through postal ballot / e voting for the following related party contracts/ arrangements entered / to be entered during financial year 2018-19 and financial year 2019-20.

Pursuant to Rule 15 of Companies (Meetings of Board and its Powers) Rules, 2014, as amended till date, particulars of the transaction(s) etc. are as follows:

1. Name of the related party

Tata International Singapore PTE Ltd. ("TISPL")

2. Name of the director or key managerial person who is related, if any

None.

3. Nature of relationship

Group Company

4. Nature, material terms, monetary value and particulars of the contract or arrangement.

The Company has been importing non-coking coal through TISPL since last 6 years. API4 index is widely used for determining the coal price in the international market and is the basis for determination of FOB price. Freight & insurance are paid at comparable/actual price. The maximum value of transactions in the financial year 2018-19 & financial year 2019-20 will be capped at Rs. 450 crore per year.

5. Rationale behind the resolution

The rationale behind sourcing imported non-coking coal with higher carbon and low ash through TISPL is given below.

A. Quality & Quantity of Coal

The Company is operating at over 100% capacity utilisation, while the Industry average in the country is about 70%. The key success factor of the company inter-alia is procurement of right quantity and quality of key raw materials which includes non-coking coal. Consistent supply of desired quality of non-coking coal from TISPL helps in controlling the operating parameters in the sponge iron Kilns, which leads to increased campaign life of the kilns, thereby increasing the productivity and profitability of the Company.

POSTAL BALLOT NOTICE

Usage of such coal increases the production and helps in producing beyond the rated capacity and a major contributing factor for ensuring environmental friendly operations.

B. Assured supply at arm's length pricing:

In the absence of the Company's own overseas sourcing arm, the Company has made arrangement with TISPL, which is a global trading and distribution company with expertise in trading of thermal coal. The pricing mechanism is based on API-4 Index.

C. Arm's Length Pricing Vetted by an Affiliate of a Global Accounting & Advisory Firm

The transaction with TISPL for purchase of coal is vetted by an affiliate of a Global Accounting and Advisory firm, for the arm's length pricing. The said transactions have been recommended by the Audit Committee and Board of Directors of the Company for consideration and approval by the shareholders.

For the financial year 2017-18, the shareholders in the 34th Annual General Meeting held on 4th August, 2017, approved such transactions for an amount of Rs. 300 crore. For the financial year 2018-19 and financial year 2019-20, Shareholders' approval is sought for an amount of Rs. 450 crore, as both the planned production and the expected market price of coal during financial year 2018-19, and financial year 2019-20, is higher than the previous year.

This arrangement is at arm's length basis and in the ordinary course of business.

None of the Directors or Key Managerial Personnel of the Company or their respective relatives are in anyway, concerned or interested either directly or indirectly in passing of the said Resolution.

The Board recommends the passing of this resolution.

Explanatory Statement for Resolution No. 3

Approval of Material Related Party Transactions with Tata International Limited ("Tata International")

Context:

A resolution for related party transaction for the value of Rs. 300 crore was approved by the shareholders for financial year 2017-18 and thereafter. A resolution for approval of similar transaction for financial year 2018-19, with the same value of Rs. 300 crore was placed for approval of the shareholders at the 35th Annual General Meeting held on 18th July, 2018, which has not been approved. After doing a detailed analysis of the results and the consequences, the Board has decided in its meeting held on 7th August, 2018, to place the resolution again and seek approval of the shareholders. However, it may be noted that since the sale of sponge iron is a continuous operation and if approval is sought for one financial year i.e. only for financial year 2018-19, the approval will expire on 31st March 2019. Hence, for uninterrupted sale of sponge iron to the neighboring countries, approval is sought for the above value for financial year 2018-19 and financial year 2019-20 each.

Background and Details of the transaction:

Sponge Iron is the main product of the Company. About 75% of the product is sold to domestic consumers and about 25% is sold to the neighboring countries. The Company is selling sponge iron to neighboring countries through Tata International Limited ("Tata International") for more than 15 years. Selling of sponge iron through Tata International in the neighboring countries helps Tata Sponge in catering to a wider market.

Benefits of selling sponge iron through Tata International Limited ("Tata International"):

The strategic advantages of selling sponge iron through Tata International, are as follows:

- (i) Company does not have its own establishment outside India. Since the Company wants to make its presence felt in the neighboring countries by providing good quality sponge iron, it is necessary to export through an agency who has the wide foot print in international market. Tata International is a global trading and distribution company. Tata International with its in-depth market knowledge and wide network of establishments across the globe in respect of various minerals and metals including sponge iron, is one of the leaders in international trading.
- (ii) Payments are assured through Tata International.
- (iii) Since the Company sells Sponge iron in the B2B segment, it is important to have a portfolio of large customers in domestic and international markets. Tata International with its in-depth expertise in International markets and having worked closely with the Company for the last 15 years is able to fulfill this objective.

- (iv) As soon as the product is dispatched from the premises of the plant, the risk of supply of product to the end Customer in international market, gets transferred to Tata International.

Approval being sought for a period of two Financial Years:

Approval is being sought for a period of two financial years because if approval is sought only for financial year 2018-19, it would expire on 31st March, 2019. In order to ensure uninterrupted operations of the Company the approval is being sought for financial year 2018-19 and financial year 2019-20.

In the aforesaid background, the Company explains below the further details:

Section 188 of the Companies Act, 2013 and the applicable Rules framed thereunder provide that any Related Party Transaction will require prior approval of shareholders through ordinary resolution, if the aggregate value of transaction(s) amounts to 10% or more of the annual turnover of the Company as per last audited financial statements of the Company.

As per Regulation 23 (4) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ["SEBI Listing Regulations, 2015"] all material related party transactions shall require the approval of shareholders. Further, explanation provided to Regulation 23(1) of SEBI Listing Regulations, 2015, states that a transaction with a related party shall be considered material if the transaction/ transactions to be entered into individually or taken together with previous transactions during the financial year exceeds 10% of the annual consolidated turnover of the Company as per the last audited financial statements of the Company. According to this definition the relevant turnover was Rs. 816.65 crore for the financial year 2017-18 and 10% of which is equal to Rs. 81.65 crore. Hence, it is proposed to secure shareholders' approval through postal ballot/ e voting for the following related party contracts/ arrangements entered / to be entered during financial years i.e. 2018-19 and 2019-20.

Pursuant to Rule 15 of Companies (Meetings of Board and its Powers) Rules, 2014, as amended till date, particulars of the transaction(s) etc. are as follows:

1. Name of the related party

Tata International Limited ("Tata International")

2. Name of the director or key managerial person who is related, if any

None.

3. Nature of relationship

Group Company

4. Nature, material terms, monetary value and particulars of the contract or arrangement.

Since the Company sells Sponge iron in the B2B segment, it is important to have a portfolio of large customers in domestic and international markets. Tata International with its in-depth expertise in International markets and having worked closely with the Company for the last 15 years, is able to fulfill this objective.

Therefore, the Company proposes to sell its Sponge Iron in overseas market through Tata International. The pricing mechanism is purely market based and comparable with prices at which the sponge iron is sold to unrelated parties. As such the transaction with Tata International is at arm's length basis. The maximum value of transactions will be capped at Rs. 300 crore each in financial year 2018-19 and financial year 2019-20.

5. Rationale behind the resolution

Since the Company sells Sponge iron in the B2B segment, it is important to have a portfolio of large customers in domestic and international markets. Tata International with its deep expertise in International markets and having worked closely with the Company for the last 15 years, is able to fulfill this objective.

As a marketing and risk mitigation strategy the Company has been selling about 75% of its products to the domestic consumers and approximately 25% is exported to the neighbouring countries through Tata International.

The Company has made arrangements with Tata International, a global trading and distribution company. Tata International with its deep market knowledge and wide network of establishments across the globe in respect of various minerals and metals including sponge iron, is one of the leaders in international trading.

In order to safeguard the risks relating to bad-debts, the Company instead of selling sponge iron to overseas customers directly, sells to/through Tata International for meeting the customer's requirement in those countries
